

Need to achieve Beyond the Five Nines ?

# CONTINUON™

“The best of class HA solution in the industry”

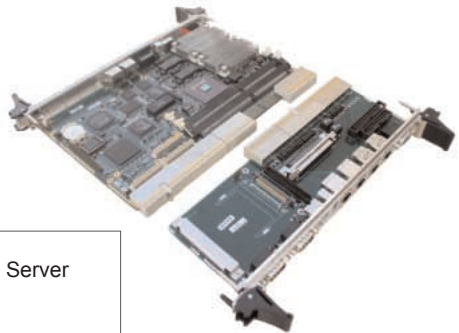

A complete range of High Availability NEBS System Platforms, Blades, System Management and Power Enabling Technologies for Computing.

- High density 8U NEBS Server Blade System Platforms
- Intel™ or Sun® Platforms
- PICMG 2.16 Packet Switching Backplane compliant
- PICMG 2.1 full Hot Swap compliant
- PICMG 2.9 full IPMI compliant
- SNMP agent support BMC/PM/CMC
- IBC 28xx Server Blades
- N+1 Redundant AC/DC Power supplies
- Dual Redundant Isolated Power Input
- Solaris, Windows and Linux OS support
- SelfReliant 7500
- Windows Adv Cluster Server

#### I-BUS Patents\*

- Dual Isolated Power Input Architecture
  - Failsafe Opticool™ Thermal Management
  - “Zero-U” Embedded UPS
  - SpaceSave Cable Management
- \* 11 patents files and 7 pending

- PICMG 2.16 Gbit Ethernet Blade Server
- Dual Low Power Processors
- DDR Synchronous DRAM
- On-board SCSI System Master
- On-board system monitoring & SNMP option
